PROFESSIONAL EXPERIENCE

Senior Software Engineer, Performance Marketing, Agave Games | Istanbul, Turkey Apr. 2026 - Present

- Own the end-to-end lifecycle of playable ads reaching millions of users, from market-driven ideation through game development to post-launch KPI analysis, partnering with PMs, growth managers, and artists to maximize CTR and high-intent conversions.
- Drive rapid gameplay iteration and A/B testing to implement creative hooks and responsive mechanics that bridge technical polish and top-tier IPM across global UA campaigns; benchmark competitor playables to drive innovation in formats and stay ahead of market trends.
- Built AI-powered tooling to accelerate marketing creative production: optimizing artists' gameplay-video workflows and generating UGC-style videos, reducing turnaround per creative and expanding the volume of testable ad variants.
- Built a JSON-driven templating web based system, that let designers and growth managers ship various playable variants without engineering.

Senior Playable Ads Developer, JustDice GmbH | Hamburg, Germany Oct. 2024 - Apr. 2026

- Owned playable ads end-to-end for games and consumer apps; from market research and competitor benchmarking, through 2D/3D asset design and development to post-launch KPI analysis, optimizing against CTR, IPM, and CVR to steer each creative iteration.
- Built an internal NodeJS based platform to streamline playable ad/ HTML5 game, and IEC creation, with built-in size optimization and one-click ad-network export, cutting production time per creative, and letting designers ship without engineering.
- Analyzed A/B tests and interaction data to identify engagement and drop-off points, improving creative direction and increasing CVR/install rate.
- Built plugins and packages, including AI-powered tools, for Unity, Photoshop, After Effects, and Figma to accelerate the design team's workflow and speed up playable ad production; contributed to transversal initiatives by rolling these tools out across teams.

Playable Ads Developer& Consultant (External), MY.GAMES | Amsterdam, The Netherlands Mar. 2025 - Mar. 2026

- Developed and designed playable ads for mobile games in Three.js, PixiJS, and TypeScript (HTML/CSS), delivering network-compliant creatives across multiple networks to drive user acquisition.
- Advised on and implemented the technical approach for each playable ad, optimizing runtime performance and tightening core gameplay hooks to lift CTR and IPM metrics.

Playable Ads Developer, JustDice GmbH | Hamburg, Germany Apr. 2023 - Oct. 2024

- Designed and developed engaging Playable Ads (Luna)/ HTML5 Games, into size-optimized, scalable, interactive experiences for apps and mobile games, ensuring alignment with marketing objectives and user acquisition strategies using Unity, Luna and C#.
- Created and optimized 3D/ 2D assets for performance and visual quality, supporting overall campaign strategy, using Blender, Photoshop, and Figma.
- Built plugins and packages for Unity, Photoshop, AfterEffects and Figma to accelerate the Design team's creative workflow and improve playable ad production, using ExtendScript, UXP, JavaScript, HTML, and CSS.

Playable Ads Developer, Panteon Games | Ankara, Turkey Nov. 2021 - Apr. 2023

- Developed and designed playable ads, transforming core gameplay into size-optimized, scalable, interactive experiences for hyper/hybrid casual titles.
- Built reusable, customizable playable ads and internal Unity packages, used by designers and growth managers, to accelerate development and iteration across multiple ad networks and campaigns.
- Led and mentored junior playable ad devs, guiding on the playable ad pipeline, core UA/performance marketing principles and best ad practices.

Marketing Game Developer, Panteon Games | Ankara, Turkey Nov. 2021 - Apr. 2023

- Rapidly transformed creative ideas into gameplay prototypes in Unity, to maximize advertising impact.
- Collaborated with growth and creative team to modify and iterate on gameplay mechanics, showcasing engaging gameplay moments for ad campaigns.
- Built reusable Unity tools and editor extensions to improve development efficiency and accelerate creative iteration.

Game Developer (Intern), GEFEASOFT | Mugla, Turkey Mar. 2021 - Jul. 2021

- Developed WebGL and HTML5 based serious games. by using C# and Unity.
- Designed gameplay systems, optimized performance for web deployment, and participated in feature development throughout the project lifecycle.

EDUCATION

M. Sc., Informatik (Computer Science), University of Hamburg Apr. 2025 - Jan. 2026

- Incomplete: Relocation

B. Sc., Electrical & Electronics Engineering (%100 English), Eskisehir Osmangazi University Sep. 2016 - Aug. 2021

- 3.01/4.00 GPA
- Worked as an intern in the Artificial Intelligence and Robotics Lab. Played an active role in developing the website for the course.

SKILLS

Programming Languages: C#, TypeScript, JavaScript, Python, C++

Game Development: Unity, Unity Playworks (Luna), Cocos Engine, ThreeJS, PixiJS, GSAP, GLSL, R3F

Frontend: HTML, CSS, Sass, TailwindCSS, React

Backend & DataBases: .Net, Node.JS, Express, MySQL, PostgreSQL, MongoDB, Prisma, Redis, RabbitMQ

DevOps & Tools: git, npm, Webpack, Vite, Docker, CI/CD, Jest, UXP

Design Tools: Blender, Spline, Figma, Adobe Photoshop, Adobe After Effects, Adobe Premier Pro

Soft Skills: Problem Solving, Marketing KPI Analysis, Creativity, Market-Trend Analysis, Quick Learner, Efficient AI User

Founder, Crabtic Hamburg, Germany	Aug. 2025 - Present
Co-Founder& Administrative Assistant, Korean Culture Academy Eskisehir, Turkey	Jun. 2019 - Nov. 2021
IGET-IT Member, AIESEC Turkey Eskisehir, Turkey	Oct. 2017 - Jun. 2018

----- P R O J E C T S -----

Agave Video Studio Python, React, AWS3, ElevenLabs Developed an internal dashboard for managing marketing video generation across multiple mobile game titles, with asset tracking, Drive-based bulk imports, automated rendering, and AI-powered subtitles using ElevenLabs.	Jun. 2026 - Aug. 2026
---	-----------------------

base122-encoding (npm package) TypeScript, NodeJS, Vite Developing a package implementing Base-122 encoding, reducing data size by up to ~30% compared to Base-64 for use in data URIs.	Dec. 2025 - Jan. 2026
---	-----------------------

Figma Design Plugin TypeScript, HTML, CSS, Figma, Vite Developed a Figma plugin that automates the creation of static store screens, network end-cards, and marketing assets, featuring DeepL API integration for seamless multi-GEO translations.	Jul. 2025 - Dec. 2025
--	-----------------------

texture-optimize-pro (npm package) TypeScript, NodeJS, Sharp Developed a texture optimization library for HTML5 games (PixiJS/ThreeJS), leveraging Sharp for high-performance image processing with per-texture configuration of max size, format, and quality.	Oct. 2025 - Oct. 2025
---	-----------------------

Text Localization - GEO Package TypeScript, NodeJS Developed a localization package, that detects device language and updates playable ads/ HTML5 game texts for multilingual support.	Jan. 2025 - Feb. 2025
--	-----------------------

AdCraft HTML, CSS, TypeScript, Tailwind, React, Vite Developed a tool designed to streamline the manipulation of ad network requirements and enable efficient build generation by providing a simple interface for playable ads/ HTML5 games.	Oct. 2024 - Oct. 2024
---	-----------------------

Adobe Photoshop Design Tool ExtendScript, JavaScript, CSS, HTML, UXP, Adobe Photoshop Developed a Adobe Photoshop extension focused on generating static store screens, network end cards and marketing purposed resources.	Jul. 2023 - Dec. 2023
---	-----------------------

Unity Playable Ads Kit C#, Unity Developed a plugin for playable ads development, featuring essential template generation, translation(localization) package, utility methods, etc.	Apr. 2022 - Sep. 2023
---	-----------------------

Semantic Segmentation using Deep Learning (Graduation Project) Python, NumPy, PyTorch, pandas, SciPy, OpenGL, Linux Utilized python libraries with deep learning techniques to implement deep learning methods for semantic segmentation, enhancing a robot's functionality in search and rescue scenarios.	Sep. 2020 - Jun. 2021
---	-----------------------
